PRODUCT DETAIL:

► **TONE & BURN** - Bring your workout to the next level with fun and new exercises, such as: Cable Kickbacks, Cable Hip Abduction & Adduction, Cable Leg Mountain Climbers, Cable Lunges, Inner & Outer Thigh Contractions..and many more! Improve your leg workouts and see the difference you can make in your strength and in the physical appearance of your glutes, hamstrings, and quads.

► **FUNCTION** - FITGIRL Ankle Strap has a thick neoprene padding, making it the most comfortable ankle cuff on the market. The 2 inch support strap is secured with heavy duty velcro, making this strap extremely easy to adjust, put on, and take off. This strap adjusts to fit any ankle size effortlessly. This strap was designed for beginners to intermediate level fitness enthusiasts (light to medium weight support).

► Our designs and manufactures products exclusively for women who live an active and healthy lifestyle. We strongly believe in providing women with the highest quality products that are comfortable and fun to use every single day! Don't settle for one-size fits men and women equally, because it's just not true. Instead, give our products a try and we guarantee that you will love them! Plus.

POWER-2953

POWER-2954

POWER-2955

PRODUCT DETAIL:

- Whether you're trying to increase your max on a deadlift, take the strain off of an annoying injury, or better engage and isolate back muscles you'll feel an immediate difference when you use a great set of weight lifting hooks.
- **WELL SHAPED COATED HOOKS** - These fit perfectly around standard barbells, dumbbells, and machine attachments like lat pulldown bars. The heavy duty rubber coatings eliminate pinched fingers and slipping on the weight keeping them in the same position from the first rep to the last.
- **CHOOSE BETWEEN OPEN OR CLOSED GRIP** - thick, fully adjustable pads cushion and support your wrist allowing you to open your hand and take the strain off of your grip (helps alleviate pain from tendonitis, golfers elbow, and causes the weight to be transferred to larger back muscles instead of your grip and forearms).
- **IMMEDIATELY INCREASE YOUR WEIGHT AND REPS** during deadlifts, shrugs, lat pulldowns, pullups, seated cable rows - any movements that target the posterior chain (back, traps, glutes, hamstrings).
- **YOU WILL FEEL THE QUALITY ON THE FIRST REP**

KNEES/ELBOW PROTECTION

PRODUCT DETAIL:

Dual-ply knee supports designed to give your knees support, compression, warmth and performance. Made from an optimum blend of materials to give a high quality finish yet tough enough to handle anything you throw at them giving you maximum performance. The double layer gives great compression around the knee joints this will encourage blood flow through the blood vessels of the knee. This will result in less pain and swelling during and after performance of sports and exercise. The elasticated nature of our Dual-Ply Knee Sleeves gives a great stretch reflex and bounce from a squat position enabling you to get more reps or lift more weight. Sleeve adds warmth, limits patella movement, and can increase proprioception (the capacity to feel the position of a joint in space as sensed by the central nervous system). So our sleeves are more than a mechanical support mechanism for the joint, but is also used to improve proprioception!

POLY KNEE SLEEVES

POWER-3051

POWER-3052

POWER-3054

POWER-3055

NEOPRENE ELBOW SUPPORT

PRODUCT DETAIL:

- **PHENOMENAL PROTECTION:** Kunto elbow braces apply even pressure across your elbow joint, which provides moderate relief from a variety of ailments including tendonitis, joint inflammation, tennis elbow, golf elbow, and other elbow pain. With our sleeves you'll be able to tackle any activity life throws your way, while ensuring you're a step ahead in injury prevention!
- **AMAZING UTILITY:** Our elbow supports are great for any activity requiring arm movement, including Tennis, Golf, Baseball, Basketball, Crossfit, Weightlifting / Powerlifting, and Volleyball. You'll be able to enjoy exceptional elbow support while still maintaining your peak performance and full range of arm motion!
- **INCREDIBLE CONSTRUCTION:** Our elbow sleeves are manufactured to provide superior support, comfort, and relief without compromising your mobility. Tight, form fitting and breathable compression fabric maintains joint stability regardless of activity while avoiding the itchiness common to neoprene supports. Now you can enjoy premium elbow support without loss of performance or discomfort, allowing for hours of continuous use!
- **TRUE FIT (NO SLIP)** –Whether you've got meaty arms, or are a little bit slender, we've got a fit for you! It's really the most important thing, isn't it? Having a fit that doesn't slide down your arm, but also doesn't give you the dreaded "muffin" is something that should be a given, but with other brands, sadly, sometimes it isn't. Our fabric weave provides the perfect form fit around your elbow, allowing you to benefit from support without suffering from sleeves that are too constricting.
